PROFESSIONAL SUMMARY

B.Tech student in CSE (AI & Data Science) with a strong foundation in data structures, full-stack web development, and machine learning. Experienced in building production-ready applications using React, Node.js, Flask, and PostgreSQL. Quick learner with a focus on clean, efficient code and real-world impact.

TECHNICAL SKILLS

Languages: Java (Infosys Springboard Certified), Python (Udemy Certified), C

Web Technologies: HTML, CSS, JavaScript, React, Node.js

Databases: SQL, PostgreSQL, MongoDB

Core Concepts: Data Structures and Algorithms, RESTful API Design, Machine Learning

Tools: Git, VS Code, Google Colab

PROJECTS

PsyConnect — Mental Health Stress Predictor

React, Flask, PostgreSQL, Machine Learning

- Developing a mental health platform that classifies user stress levels (Good, Moderate, Severe) via a machine learning model trained on structured questionnaire responses.
- Built a responsive React frontend and Flask backend with 4+ RESTful APIs; integrated PostgreSQL to manage user data and questionnaire responses at scale.

Smart Contact Manager App

React, Node.js, MongoDB

- Built a full-stack contact management system handling 100+ contacts with complete CRUD operations via 5+ RESTful APIs backed by MongoDB.
- Designed a responsive React frontend with add, update, delete, and search functionality, improving usability and data management efficiency.

INTERNSHIP EXPERIENCE

AI & Cloud Computing Intern — AICTE & Edunet Foundation

- Worked with 3+ machine learning models across 2+ real-world datasets, covering data preprocessing, model training, and prediction workflows; completed 40+ hours of hands-on AI and cloud training.
- Integrated ML models with 2+ cloud services, exploring scalable deployment pipelines on cloud platforms.

EDUCATION

Shri Vishnu Engineering College for Women — B.Tech, CSE (AI & Data Science)

CGPA: 9.70 | Present

Ranked among Top 2 students in Semester 1 with a 9.85 GPA

ACHIEVEMENTS

Aspire Leaders Program (Aspire Institute × Harvard Business School): Selected among 9,362 finalists out of 45,228 applicants — Cohort 4 Alumni.

Cognizant Excellence for All Scholarship (Foundation for Excellence): Awarded for academic merit in the first year.

POSITIONS OF RESPONSIBILITY

Student Coordinator, ISTE Student Chapter: Organized 10+ events for juniors including communication sessions, group discussions, debates, and creative activities.

Active Member, Page Turners Club: Contributed to reading and literary activities.

HACKATHONS

Smart India Hackathon (College Level): Designed a machine learning-based stress prediction application to analyze user inputs and provide mental well-being insights.

Ideation Participant: Proposed a solution to redistribute near-expiry and dented products to economically disadvantaged communities, minimizing food waste and improving accessibility.

CERTIFICATIONS

Programming Using Java (Infosys Springboard)
Learnathon (GUVI)

Python for Beginners (Udemy)

IT Job Simulation (Deloitte)
